

Brett King, MD, PhD

Associate Professor of Dermatology
Yale University School of Medicine
New Haven, Connecticut, USA

Brett King is associate professor of dermatology at Yale University School of Medicine, specializing in inflammatory skin diseases. He has pioneered the use of Janus kinase (JAK) inhibitors in dermatology, and his work has revealed the broad utility of JAK inhibitors for the treatment of alopecia areata, vitiligo, atopic dermatitis, granulomatous disorders, and other conditions.

Dr. King received his B.A. at the University of California at Santa Cruz, his PhD from Stanford University and his MD from Yale University School of Medicine. He completed medical internship at Massachusetts General Hospital and dermatology residency at Yale University School of Medicine.
